

Document Intelligence API

Document image -> structured fields (6 doc types), document Q and A, or table extraction - one endpoint family, one per-page price

Doc types	Also	Pricing
receipt / invoice / id / contract / form / generic	document Q and A + table extraction	\$0.01 / page (\$0.012 for /tables)

Pricing

Tier	Price	Quota
Free	\$0/mo	50 calls
Starter	\$29/mo	~3,000 pages
Pro	\$99/mo	~12,000 pages

Quick start

```
# 1) structured fields - doc_type picks the schema
curl -X POST https://api.brainiall.com/v1/document/extract \
  -H 'Authorization: Bearer $KEY' -H 'Content-Type: application/json' \
  -d '{"image": "<base64 png>", "doc_type": "invoice"}'
# 2) ask a question about the document
```

```
curl -X POST https://api.brainiall.com/v1/document/query \  
  -H 'Authorization: Bearer $KEY' -H 'Content-Type: application/json' \  
  -d '{"image":"<base64 png>","question":"What is the total?}'  
# 3) pull every table out as headers + rows  
curl -X POST https://api.brainiall.com/v1/document/tables \  
  -H 'Authorization: Bearer $KEY' -H 'Content-Type: application/json' \  
  -d '{"image":"<base64 png>}'
```
